RAKSHITHA S

FULL-STACK DEVELOPER | AI/ML ENTHUSIAST

+91 7349248807 | Bengaluru, Karnataka | raksharakshitha02@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering student focused on full-stack development and AI/ML, with hands-on project experience building web applications using React, Django, Python, and relational databases. Familiar with REST API development, authentication, database design, data analysis, machine learning workflows, and computer-vision tools. Interested in developing practical, user-focused software that combines reliable application engineering with useful AI capabilities.

TECHNICAL SKILLS

Programming:	Python, JavaScript, TypeScript, SQL
Frontend:	React.js, Vite, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend & APIs:	Django, Django REST Framework, RESTful APIs, JWT Authentication
Databases:	PostgreSQL, MySQL, MongoDB
AI / ML & Data:	Machine Learning fundamentals, NLP, Computer Vision, NumPy, Pandas, Scikit-learn, OpenCV, MediaPipe
Tools:	Git, GitHub, VS Code, Postman, Jupyter Notebook
Core Concepts:	Data Structures & Algorithms, OOP, DBMS, API Integration

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern — Pinnacle Labs **Aug 2025**

- Completed a 4-week virtual internship covering core AI concepts and practical AI workflows.
- Worked on AI-related tasks and project activities, applying analytical thinking and problem-solving.
- Built familiarity with project-based development and translating concepts into practical solutions.

PROJECTS

1. JobConnect AI – Smart Job Recruitment & Career Management Platform

- Developed a recruitment platform with separate workflows for job seekers, recruiters, and administrators, supporting job discovery, applications, hiring, and platform management.
- Implemented job search and application tracking, resume management and ATS analysis, recruiter job posting, candidate matching using TF-IDF and cosine similarity, and interview scheduling.
- Added role-based access, JWT authentication, AI-assisted resume and job-description tools, and PDF generation for resumes, application receipts, offer letters, and reports.

Tech Stack: React.js, Vite, Tailwind CSS, Python, Django REST Framework, SQLite/PostgreSQL, Scikit-learn, TF-IDF, JWT, ReportLab

2. AI Quiz – AI-Based Study and Assessment Platform

- Built an AI-focused learning application that processes study documents and turns learning content into structured study resources such as summaries, key concepts, MCQs, flashcards, and quizzes.
- Designed a learning flow covering document text extraction, AI-generated learning material, quiz attempts, scoring, and performance insights to help learners identify weaker topics.
- Repository includes separate Django backend and React/Vite frontend areas, with dedicated AI engine, quiz, document, authentication, and ML analytics components.

Tech Stack: Python, Django, React.js, Vite, AI/ML components, Random Forest, K-means

3. Fake News Detector – Machine Learning-Based News Classification

- Developed a machine learning application to analyze news text and classify articles as fake or real.
- Applied text preprocessing and NLP-based feature extraction to prepare news content for classification.
- Built a prediction workflow that accepts news text and returns a classification result to help users assess information credibility.

Tech Stack: Python, Machine Learning, NLP, Scikit-learn

EDUCATION

B.E. – Computer Science and Engineering | Jnana Vikas Institute of Technology, Bidadi, Bengaluru **CGPA: 8.7/10**

Oct 2023 – Jun 2027 (Expected) | **7th Semester**

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, SQL, Python Programming, Web Development, Operating Systems

CERTIFICATIONS & ACHIEVEMENTS

- **Artificial Intelligence Internship, Pinnacle Labs** – completed a 4-week virtual internship in Aug 2025.
- **24-Hour Intercollegiate Hackathon** – participated in an intercollegiate hackathon, strengthening rapid prototyping, teamwork, and technical problem-solving.

LEADERSHIP & SOFT SKILLS

Teamwork, Communication, Problem-Solving, Project Coordination, Time Management, Adaptability, Event Coordination (Hackathon, Treasure Hunt, Photography, and Tech Charades; 100+ participants).
